

Grievance Redressal 2023-24

Date

since our's is a grant-in-aid college, management is the top body, but various stake holders like Principal, various faculties & students are prioritized and contacted for their suggestions & complaints. The committee tries their level best to understand and analyze & resolve the grievances which have a potential impact on the college community.

During 2023-2024, most of the students were happy with the existing & improving facilities of the college. Students responded positively for different faculties except a senior history faculty named Daxaben. Strict confidentiality standards to protect the privacy of the student raising the complaint was maintained, a meeting was called upon & resolution was made, with a aim to foster a harmonious environment for learning & teaching. Problems were discussed with that particular faculty by the principal & the complain was resolved.
